

Chocolate Mocha Punch

6 cups chocolate-flavored coffee (brewed)*
½ cup sugar
½ cup Nestle's Quik powder
¼ cup instant coffee granules
½ gallon vanilla ice cream
½ gallon chocolate ice cream.

Brew coffee. Add sugar, chocolate drink powder and instant coffee. Mix well and let cool. Pour in punch bowl. Add ice creams. (Square cartons are easiest to work with, since you can open/slice these and avoid plopping and spilling.)

For added appeal, drizzle chocolate syrup on top—to make it even more chocolaty and inviting.

*The original recipe just calls for hot water, but brewed coffee and especially a chocolate flavored coffee gives it more of a rich mocha flavor.
