

JULY FACILITATOR'S GUIDE

BEGINNING THOUGHTS...

It seems that everyone loves to eat. Try going out on a Friday or Saturday night and the lines are usually very long. I often think that if I were going to own a business, it would need to be a restaurant. When we have big days at church, homecoming, bridal or baby showers, graduation celebrations or fellowships, food is always involved. Food is the sustaining fuel of our life. We must have food or nutrition of some form to live. So why are so many people malnourished?

Malnourishment is a condition where the body lacks sufficient nutrients to function because of insufficient or poorly balanced diet, faulty digestion or utilization of foods. Sometimes it's caused by people trying to diet. Often it occurs in countries where there is not enough food. Then there are people who are ill and not able to feed themselves. Intervention may have to be made in these cases. This could involve being fed intravenously or through feeding tubes. It's neither pleasant nor natural to be fed in this manner. I've had family members who've experienced this, and they neither wanted nor were happy about this situation. If left untreated, malnourishment can result in misery and death.

A soul that hasn't accepted Christ is lost without hope of an eternal life. Receiving Christ saves the soul. Then nourishment comes by Scripture reading, listening to God's Word, prayer and daily communion with God. It's a buffet of everything pure, honest and noble. Fill your plates and never let your body experience the hunger pains of apathy, sin and neglect or being away from God. He can give you everything you need for a healthy, vibrant life of happiness, peace and joy.

Feeding Our Souls

FOOD

BODY FITNESS GOAL: Feast on the Word of God, realizing the Word is our food and Christ is the Word.

IN CLOSING...

Are you hungry enough to start a balanced diet? I believe that we are some of the most blessed people on earth. We have the freedoms to go and do whatever we please. We have the capability to make our life style the healthiest and happiest that anyone possibly can. Yet, I look around and notice that everyone does not take advantage of this for one reason or another. It's not my job to judge them, but I will make this observation; We could all do a better job of feeding the right things into our daily lives. Our lifestyles can and do reflect whether or not we are nourishing our hearts and souls. If it's garbage in, then it's garbage out. However, if we think on things that are true, honest, just, pure, lovely, of good report, virtue and praise, then we are being obedient. Let's start today and try to feed our souls the right kind of diet.
